

Songbird Network

Epoch Cycles

Epoch cycles per week.

Wrap your tokens

To delegate your Songbird tokens you first need to wrap your SGB in to WSGB (Wrapped Songbird). Then select one or more signal providers in the wallet of your choice.

Claim Rewards

SGB rewards have to be claimed within 90 days or they are forfeited and put back in to the rewards pool.

Changing providers

Once the epoch cycle begins, you are free to unwrap or change signal providers as your delegations are locked in from the previous cycle.

TIP

Claim your rewards and delegate every week to compound your tokens.
